Reunion & Campout

Caught in the Blur

By Keith Hayman

As I look at the Hayman Campground, I like to think of a more peaceful time; a time when the campout was a little slower with more time to just sit and talk about our one of a kind family that we are blessed with, a chance to hear the stories of my older brothers and sisters and the life they had growing up before I was in the picture, and a time to talk with my nieces and nephews about our younger days and the summers in the tomato field with Mom and Dad. When we were young we thought the old people were silly for just sitting around chewing the fat about the years that had gone by. But now, I must be turning into one of those older people. Have I almost forgotten the real reason that we have a reunion in the first place? Does it get lost in the smoke, the ka-booms and the colors that fill the Saturday night sky? Maybe I just need to slow down a little for the big campout weekend and enjoy our family and quit thinking of things to jump up and do. It does seem like the weekend is just a blur and it's over in the blink of an eye, and we go our separate ways. And, of course I know what takes up a lot of my time on Saturday evening leading up to 10:00 p.m. -- no pain no gain. It takes a little work to have fun and oh do we ever have a great time putting on our show. And, the show must go on -- the finale going off with the song (I Can Only Imagine), the hair standing up on my arms, and a few small tears coming from the hearts of our family members. How could we not do Hollow Blast in memory of our loved ones that have passed on? So, let's get

the party started for the big weekend and get ready to be rocked with Hollow Blast 2008. Finally, on Sunday around noon I will be thinking about those famous words from my poem a few years ago, "As our family pulls out I will shed a small tear, may the Good Lord be with you and I will see you next year".

FAMILY

On October 7, 2007 the third anniversary of their civil marriage, **Derreck** and **Vanya** were married in the St. Marco Cathedral in Belgrade, Serbia. **Jordan** and **Gloria** were able to go and share the occasion with **Vanya's** family and friends. It was a beautiful service and the Djukic family made them feel right at home -- **Vanya** has a very nice family. However, **Gloria** said trying to communicate was interesting.

Becky has taken over the grandma role for her sister that passed away by taking care of Leannndrea, her nephew's daughter.

If anybody knows who Jeff Foxworthy is then you have heard the phrase "You know you're a Redneck if ...". Well this is **Beth's** version; "You know you're a Hayman if...".

You know you're a Hayman if:

You lie on the floor after a big meal and groan

You know you're a Hayman if:

You're in the porta potty and it begins to shake

You know you're a Hayman if:

You are yelling "SOS"

You know you're a Hayman if:

You've rolled down the mound at Portland Park

You know you're a Hayman if:

You've eaten yourself sick on pickled corn

You know you're a Hayman if:

You like homemade ice cream

You know you're a Hayman if:

You can't stop after one plate

You know you're a Hayman if:

You own a tent, camper, pop up, 4-wheeler, Mule, or a motorcycle

You know you're a Hayman if:

You know what "Grab it and Growl" means

You know you're a Hayman if:

You run into someone you don't know who's related

You know you're a Hayman if:

You are fun loving, have a great personality, have a great sense of humor, and love to spend time with family and laugh!!

And last but not least

You know you're a Hayman if:

You're watching the best fireworks of the year on the 3rd week of July!!!

New Additions

Olivia and **Sam** welcomed a beautiful baby girl, **Iris Claire**, at 1:35 p.m. on March 11, 2008. **Iris** weighed 6 pounds and was 18 ³/₄ inches long. **Iris** is growing like a weed and now weighs close to 14 pounds and is almost 24 inches. **Sam** and **Olivia** couldn't be happier!! **Iris** was born at Women's and Children's Hospital in Charleston. **Olivia** called **Bev** and **Alan** at about 12:30 in the morning to tell them they were at the hospital. She said it would be a while and they should rest. After **Bev** hung up the phone, **Alan** asked, "We're supposed to go back to sleep?" The night did pass with very little sleep. **Bev**, **Alan** and **Zac** went to the hospital about 9 a.m. **Sam** and **Gloria**, **Sam's** parents, arrived soon after. They all got to visit for a little while before the baby was born. Finally, **Iris** arrived at 1:35. **Olivia** and **Sam** did a great job! Grandmas got to go in at about 2:30 and hold **Iris**. Grandpas went next, then **Uncle Zac**. They moved them to their room soon after and all grandparents got to go in together. On Wednesday, Great-Grandma **Lil** went to visit. Mommy and baby were home from the hospital on Thursday evening. **Olivia** is now back to work, and **Beverly** gets to baby-sit **Iris**. **Alan** and **Beverly** are loving every minute of being a Poppy and a Granny!!

Lil said this was the greatest thing to happen to her this year as **Olivia** is her first granddaughter and now **Iris** is her first great granddaughter.

Deaths

Aunt Elizabeth Stover, wife of **Uncle Wally**, passed away April 23, 2008.

Evelyn Haught, wife of **Darrell** and daughter-in-law of "**Aunt Pete**" passed away this past year.

Cecil Gail (Smokey) Stover passed away last year. If you attended any Stover Reunions, he was the one who always led the singing and instrumental playing.

Health

Ashley is continuing her battle. So far the tumor has remained the same size for 15 months and she has been off of chemo since last July (Thank the Lord). Please keep her and **Ben** in your prayers.

When **Sallie** was in the hospital in May 2007, she had a CT scan and this showed something unusual in her right kidney. They performed an MRI and determined she had a cancerous tumor in her kidney. She went back into the hospital on

September 13th and they removed the complete kidney. Doctors told her there was no other cancer they could see, but the tumor had grown into the renal vein and it was possible some cells might have drifted off into the bloodstream and could show up somewhere else at a later date. **Sallie** is now involved in a national study taking medication and being monitored for one year. So far nothing has shown up.

On January 31 of this year **Sallie** had back surgery. She has 10 screws and two metal rods in her back. She does not have the pain in her legs like she did before, but is still having some pain. She is slowly getting better. Doctors tell her it takes a year to get over back surgery.

David and **Kathy** both had unexpected surgeries that now make them wary of holiday breaks. **David** spent Easter break in the hospital with a partially ruptured appendix, and **Kathy** had her gall bladder removed during **Ed's** July 4th shutdown from Honda.

Celebrations

Kyle was presented his Eagle Scout award at a Court of Honor held by his troop in June. The ceremony consisted of the presentations, several speeches, a few laughs, and a few tears. **Brice** presented **Kyle** his Eagle Scout medal and **Marcie** pinned it to his uniform. A catered barbeque reception was held afterwards. **Beverly** and **Zac** made the trip from West Virginia and **Brian** and **Sarah** Hayman were present. Since **Kyle** has aged out of the troop and is moving on, **Brice** has resigned as Scoutmaster. During **Kyle's** Eagle ceremony, the troop presented **Brice** with a picture frame and a hand-carved

hiking stick as a thank you for his years of service.

Olivia's baby shower was on Saturday January 12th and quite a success. The food from Kroger's deli was wonderful. **Lil** brought a delicious cake made by a friend in Racine. **Beth** did the games. **Beverly** and **Lil** did the food. **Gloria, Sam's mom,** did the decorations. There were about 40 people there.

When **Barb** came home from Columbus for Fathers Day her mom treated her to dinner at a Chinese Buffet. **Annie** had all the family down to their house for a Hot Dog Roast and homemade ice cream to celebrate Father's Day. Everyone went to church with **Barb** and **Bob's Dad** on Sunday morning, but **Linda** attended her own church.

Pets

Ashley has company in the day time now when **Ben** is working. Brother and sister Australian Shepperd's, **Nina** and **Jude**. **Nina** favors **Ben** and **Jude** favors **Ashley**.

Linda has an Australian Shepherd called "**Scar**" who is just now a year old. Although still just a puppy, he weighs 85 to 90 lbs. and can stand up on his back legs, put his paws on **Linda's** shoulders, and look her in the face. When **Linda** started to stand up from a bending position on the hillside behind her house, **Scar** decided to play, and gave a strong leap on her. **Linda** flipped backwards landing on her tail-bone and then her back, hit the back of her head on the ground, and did a complete somersault. Praise the Lord!! No bones were broken but the soreness lasted what seemed like forever!! **Linda**

is now always on guard to block his attacks of play. Training is doing much better now after he turned one year old.

Ken and **Becky** have a new pup named **Max**, and he is a handful.

"**Maw Maw**" bought **Allison** a baby guinea pig which she named "**Megan**". One day Allison's mom received a phone call at work from the school office telling her that someone needed to come to school and pick-up the guinea pig. **Allison** had hid it in her back pack to ride to school on the bus and spend the day. Guess who was off work that day and went

after "**Megan**"!!!! She was not in trouble and everyone at school including her bus driver thought it was funny.

LEISURE & HOBBIES

Kyle earned the rank of Eagle Scout in November of 2007. Some of his requirements were earning 26 merit badges, serving as a Junior Assistant Scoutmaster, and completing a successful board of review. But his most challenging requirement was his community service project. For this, **Kyle** designed and constructed a footpath and boardwalk for his church. He created the plans, made a presentation to the church, acquired all necessary approvals, raised the funds (approximately \$1500), and then organized and lead the entire construction (from start to finish). His project took a total of 340 hours to complete.

Amber is enjoying her summer vacation by swimming, playing volleyball, and of course playing Guitar Hero with her friends. Best of all was the family trip to Mrytle Beach where they went to

Hard Rock Park. **Shane** and **Amber** rode the Led Zeppelin Roller Coaster, which goes 65 mph and is 155ft tall -- but, it lasted only 20 seconds.

Scott has achieved the rank of Life Scout and is currently working on his eagle project to obtain the highest rank in Boy Scouts as an Eagle Scout. He will be going to Assateague Island National Seashore in Maryland for Boy Scout camp this summer. **Scott** and **Mike** expected to get home from the Assateague Island trip with the Boy Scouts on Friday night, July 18th, around 10 p.m. They would have to unpack and re-pack for this year's Hayman reunion, and just might be a little late arriving on Saturday.

John took his annual trip to Canaan Valley in February to go extreme snowboarding with his brother and a few friends. Other than that, he has been spending the majority of his time toning his massive guns.

David dedicates most of his spare time to becoming a video game expert. He loves that he can play multi-player games with his friends anytime on Xbox 360 Live. He can even play with and talk to one of his best friends, who

moved to Germany last year, through the Xbox.

Don still shoots trap once per week, and skeet once in a while. His good friend he had been shooting with for eleven years lost his battle with leukemia in March.

Brice and **Kelsey** spent their traditional “Father-Daughter Weekend” last October camping at Chincoteague, VA. They had a wonderful time bike riding, hiking, seeing the wild ponies, watching movies, and eating ice cream. This event has been a tradition with them for several years and they both look forward to it each year.

Brian formed a new Boy Scout Troop this past fall. He is the Scoutmaster and **Carole** is the Secretary for the troop. **Timothy** is the Senior Patrol Leader and **Matthew** bridged to the troop in March. It has been a learning experience for everyone involved. The troop has been pretty active with an overnight stay on the U.S.S. Constellation, (2) local food drives, winter camp at Broadcreek Scout Reservation, scout night at a Blast soccer game, snow tubing, Camporee, camping at Skyline Drive, Luray Caverns, a Frederick Keys game, Relay for Life, marching in the Arbutus 4th of July parade and summer camp at Bay Port Scout Reservation in Jamaica, VA.

Kelsey’s free time and money is spent keeping up with everything Jonas Brothers. For everyone over the age of 18, the Jonas Brothers are the latest boy band craze. **Kelsey** has all their music, videos, pictures, and even a Nick Jonas unreleased CD from years ago. **Kelsey** and her best friend **Lindsay** have been to three

of their concerts so far this year with a fourth coming up at Hershey Park later this month. Besides the Jonas Brothers, **Kelsey** has also seen in concert Miley Cyrus/Hannah Montana, Hilary Duff, and Aly & A.J.

Shari has been spending her free time feeding her brain with the knowledge of many books, sipping on vanilla chai tea, and kicking butt on Wii Fit. She is a yoga master. She likes to say that she and **John** are boring, but in truth they are professional zombie slayers of the night.

Olivia and **Sam** were lucky to have season tickets to WVU Football. They traveled to Morgantown for every home game from September through December. They had such a good time that they have tickets again this season! Go ‘Eers!!

In last years edition of the Hayman Holler, **Mike**, **Ed** and

Pete had joined the Wild Hogs Motorcycle Gang. This year **Keith** and **Leslie** are two more members of the gang as the proud owners of a 2007 Harley Davidson Softail Custom. They have been out cruisin’ the scenic highways and byways of Meigs County. **Keith** also took a ride over to West Virginia to do some hill climbing --up, up, up and over the top of Angerona Hill past **Mom’s** old home place. Then, it was Rt. 87 to Crescent Road and out to the old cemetery where **Grandma** and **Grandpa Stover**

are laid to rest. **Keith** said he made one big mistake -- no camera -- guess he will just have to take another run over that way soon. **Dad** always did like a motorcycle, and a Harley was on the top of his list. **Keith** says he wishes he could show it to him and sit down for a good talk about it. Smile down **Dad** – **Keith** and **Leslie** are out putting around on a Harley just like you and **Mom** did back in 1932, but without the side car!

Be sure and check out a **Nicholas** original movie on YouTube. **Nic** works hard to keep up his electronic gaming skills on the computer, Xbox 360 and Wii. And, if you want to know anything at all about the Peanuts, he is an expert!

Don has been helping a good friend of many years, **David Soper**, build a 120’ x 40’ steel building. A couple of weeks ago they took work breaks and cooled off by riding motocross bikes around the field and woodland trails on the property.

While **Emily** is a Rock Band expert on the Xbox 360, she spends a lot of her free time playing the piano and learning to cook.

Brian has earned a reputation as the “Hike Nazi” after taking the boy scouts and their parents on a vigorous nine-plus mile hike while camping at Matthew’s Arm on the Skyline Drive. He had planned a shorter hike which seemed to be taking a very long time. After

hiking for hours, they realized the map had been marked

wrong. One of the parents actually “passed out” when they returned to the campsite (she was OK!). The boys did not have a problem with the length of the hike, but, the parents have named it the “Trail of Tears”.

Anyone need a bike? **Ed** is your guy. He is a Craig’s List addict, but has been able to find really nice bikes for all of his friends and neighbors whether they needed one or not. He even found one for himself and loves to bike ride with the kids. **Ed** has also been busy either helping out or coaching soccer, baseball, and softball teams.

Sarah and **Timothy** continue to take guitar lessons. They are trying to get **Matthew** to learn bass guitar.

Olivia and **Beverly** went to see the traveling Broadway Production of “Annie” in Charleston at the Clay Center on September 26th. It was great! Annie was dancing with Daddy Warbucks once and she danced right out of her shoe. When she went by it again, she danced right back into it. The music and acting were wonderful!

Matthew completed cub scouts this year and received his Super Achiever/Heavy Shoulder patch for earning all twenty of the Webelos Pins. He also earned the Arrow of Light which is the highest award that can be earned in cub scouts. He bridged to boy scouts and is now in the same troop as **Timothy**.

Don & Donna have been able to attend some of **Tim’s** and **Matt’s** Boy Scout programs, as well as **Keri’s** and **Nate’s** track meets.

Kyle has his own Rock Band with drums, rhythm guitar, bass, and electric guitar. He owns and plays an Ibanez Electric guitar in his group. Their name is “JEWVIS” which is short for Jewell and Davis, who is another band member.

CAREERS/JOBS

Ted has finally arrived at full retirement age but continues to work. He likes the work he does and the people and customers he works with, so for now will continue to work.

Zac is looking for a job as a museum educator or as an archivist at many different museums, historic sites, historical societies, and government history agencies throughout Ohio, West Virginia, Maryland, Virginia, DC, and the Carolinas. While waiting to find the perfect job, he is back at Fenton Art Glass as a tour guide and also volunteering at the Washington County Historical Society in Marietta.

Last December **Keri** got hired at Starbucks as a Barista. She is known by the customers as “The Crazy Sticker Girl” because she always puts the coffee stickers all over her face and tells them as she hands off their coffee that it’s “made with love.”

Kathy started subbing as a secretary in the Westerville school district this year. She spends so much time at school volunteering they figured she should get paid once in a while, not that she has shirked any of her volunteer duties which include working in the library, running the school store and directing the after school Drama Club.

Ben’s job took him to Alaska for a short time.

Curtis recently began a paid six-week training program with a cable company in Columbus. It will be a nice job with good pay and benefits such as medical insurance.

Brian hired **Sarah** to work in his office this summer. She thought she was going to get to do some programming, but, so far she has been doing data entry which she finds to be mindless and extremely boring. She does like the paychecks though!

Kelsey works weekend evenings at Casa Rico, a local Mexican restaurant at the mall.

She is a hostess, greeting the customers with a smile and taking them to their seats. She’s also gotten really good at rolling up the silverware, and singing and dancing with her co-worker **Amanda**.

Becky is a substitute cook for Wood Co. schools. She really likes being around the kids.

The company **Ken** works for built a new store in the old Big Bear on the south side of Parkersburg. He can see it from his house, and with the price of gas was tickled to death when they moved him to it. **Sarah Beth** also works as a cashier at the new store. **Ken** says she does a real good job and he is VERY PROUD of her!!!

Kyle has worked after school in the evenings and part time on Saturday afternoons delivering medicine for Health Aid Pharmacy in New Haven.

Jesse is working for the State Roads again this summer and starts his student teaching this fall.

“**Hurricane Sophie**” still works full time making as many messes around the house as she can.

TRAVEL

With **Sallie's** physical problems **Ted** and **Sallie** have not been able to travel any this past year but are looking forward to doing some in the future.

Mike, Terri, Emma and **Scott** took a family vacation to Disney World in June to celebrate **Emma's** “sweet” 16th birthday.

After the holiday season in January, **Derreck, Vanya, Ashley** and **Gloria** went to Phoenix to be with **Jordan. Gloria** said it was wonderful to be with all of her kids at the same time. In June, **Ashley, Derreck** and **Vanya** came back home (Athens). They spent time with their father **Bill**. Unfortunately, he is battling lung cancer and it has traveled to his brain. **Gloria** asks that you please keep him and his family in your prayers.

For the week surrounding the 4th of July, **Keri** traveled to Deep Creek, Maryland with her boyfriend, **Trevor**, and his family. They own a cabin in the heart of the mountainous wilderness and they got to see 4 bears, 2 of which were fighting! She went 4-wheeling, fishing, and

wakeboarding; having a tremendous amount of fun!

In August, **Alan, Beverly, Zac, Olivia**, and **Sam** went to Bluestone State Park in West Virginia. They rented a cabin for a weekend. On Thursday, the 16th, **Zac, Alan**, and **Bev** went to The Greenbrier to tour the secret fallout shelter that was built for Congress during the cold war. It was quite impressive. They entered through a long rather dark tunnel that was used to deliver supplies. It was kind of creepy. They watched a short movie in a room that would have been used for briefings. During the tour, they saw all the tricks that were used for hiding the shelter from the public. At one time they were about 70 feet below ground. On Saturday everyone took a pontoon boat ride from 9:30 until 2:30. It was really nice. **Liv, Alan**, and

Sam went fishing, and **Sam** caught two fish. They saw egrets, ospreys, and a bald eagle. They also had fun swimming in the lake and eating lunch on the boat. On Sunday morning they cooked a big breakfast with **Sam's** best biscuits. YUM! **Liv** and **Sam** headed home. **Alan, Zac**, and **Bev** went to Sandstone Falls, Babcock State Park, New River Gorge Bridge, and Hawk's Nest on the way home. It really was a nice trip.

On the road for the **Keith Hayman family** was the same as last year; a captain's and pilot's meeting in St. Louis and a trip to

Myrtle Beach in June to stock up on material for Hollow Blast. Also, with the new Harley Davidson in the building, they just had to stop at all the Harley shops along the way to collect shirts and shot glasses.

Don & Donna traveled to Ohio last August for the annual **Grandpa George Hayman** Reunion. That evening, **Don, Ted**, and **Keith** and family went to the Meigs Co. Fair (Don's first visit in many years). Among those they talked with were **Junior Wolfe** and **Sheriff Bob Beagle** (Don and Bob were classmates).

This past year **Beth** and **Steve** went to Cleveland to visit **Steve's** family. They went out to an Irish Pub for dinner on Friday night to enjoy some great food and watch some of the employees do a river dance for them. On Saturday night they enjoyed a nice dinner with **Steve's** family and then played games afterwards like shooting pool, ping pong, and a game called Left, Right, Center. Everybody went to breakfast the next morning. They had a really nice time.

Ashley and **Ben** drove down to Lake Tahoe to see **Ben's** family last fall.

Brian, Carole, Sarah, Timothy, and **Matthew** took a vacation to Niagara Falls, Canada last July. They headed there right from the reunion and arrived in time to see the falls lit up for the night. They rode the Maid of the Mist, went on the Journey Behind the Falls, took the White/Water Walk, and visited the Butterfly Conservatory. Before heading home they drove to the U.S. side of the falls and then visited Old Fort Niagara, which had been

highly recommended by **Uncle Ted**. On the way home they stopped at Watkins Glen State Park in N.Y. and hiked the Gorge Trail and also stopped at the Grand Canyon of Pennsylvania.

Early last October **Don & Donna** camped at Big Meadows on the Skyline Drive for four days. Later in October they spent five days camping and touring Amish country near Lancaster, PA. **Don** just had to buy an Amish-made Glider Rocker for his retirement pleasure.

In August, **Sam** and **Olivia** went camping at Blackwater Falls for several days. They enjoyed fishing and hiking. They ended their vacation at trout camp on the Williams River where they went canoeing and fishing.

On Memorial Day **Lil, Gertie Manuel, Linda** and **Allison** went to Portland Park area for a Horse Show, Country Music, Bluegrass and Gospel Sing plus a lot of food that was for sale. **Lil** rode back with **Linda**. They stopped at the Parks Mound so "**Maw Maw**" **Linda** could fill **Allison** in on the history of the Hayman Reunions. She climbed the mound to the top with her to explain how they used to slide down the hill on the cut out sides of cardboard boxes when they had the picnics there at the end of her grade school years. Guess who got dizzy from the height and steep steps and had to be helped down by her granddaughter? She also showed her how to climb up on the big monument ledge and walk around it trying to push others off. **Maw Maw** did not try it!!! Then **Lil** had a good idea to go to Ravenswood's Wendy's for a Chocolate Frosty. The old camp sites were our next view along the

Ohio River as more history was shared. **Linda** showed **Allison** the area where **Donna** lived when **Don** started dating her. They continued through Apple Grove and showed her "**Maw Maw's**" birth place area, where the old church used to stand, and where she always walked up the highway to services. The story continued down the road at **Aunt Bertha** and **Uncle Earl's** place with memories of helping bring in the cows, eating home made butter, and drinking sweet milk. The Letart Cemetery was the next stop to visit the gravesites of **Dad, Mom** and **Phyllis**; more history and memories were shared. Their last stop was Greenwood Cemetery by **Lil's** to visit **Rob's** grave. **Lil** told **Linda** later that it really surprised her to see **Allison** paying so close attention to all the history shared. She said most kids just don't care.

Ted and **Sallie** came home to visit the weekend of June 21st. **Ted** said he was getting homesick to see the old home place and everyone. **Keith** was off the boat. **Steve** and **Beth** took their 4-wheeler up to visit. They ate pizza and visited with **Ted, Sallie, Linda,** and **Allison** for a while. Then **Keith** and **Amber** took **Steve** and **Beth** on a 4-wheelin ride out behind **Keith's** house. **Amber** escorted **Steve** on the Mule and **Beth** rode the 4-wheeler behind **Keith**; then, **Amber** would escort **Beth** on the Mule while **Steve** rode the 4-wheeler. Then they all raced each other around **Keith's** old go-cart track. And of course, the best part was when **Keith** took **Beth** for a

ride on his new Harley Davidson. **Beth** told **Leslie** she was going to buy her some chaps and a bandana to wear while she is out riding on that thing. That night everyone enjoyed a Hot Dog Roast at the campsite. **Keith** put off a few fireworks as an appetizer for the Reunion, and it finally rained everyone out. **Keith** and **Leslie** already had everything in top condition for the Hayman Reunion. All had a good time that day -- it was very nice. **Beth** says "Thanks **Keith**!!!! It's always fun at your house". OH!! By the way, they also got to watch **Keith** kill a snake!!

"Grandma" **Linda** and **Kyle** went to **Barb's** and **Curt's** in December around Christmas time to see the Trans Siberian Orchestra in Concert. They loved it and want to go again this year. "Grandma" **Linda** also drove **Kyle** to Columbus to attend a Concert with **Barb** and **Curtis**. **Linda** stayed behind to rest!! They saw "Death Leopard", "Reo Speed Wagon" and "Styx's". **Curtis** drove down to the farm on another week-end to take **Kyle** back to Columbus to attend "Rock On The Range".

HOMES

Brice, Beth, Steve, Zac, Alan, and **Bev** cleaned out **Lil's** basement on the 27th and 28th of October. They loaded two of **Steve's** dump trucks full. There is also at least another truck load gathered and piled by the basement door to haul when the mud dries up. What a weekend!

Don & Donna finally bit

the bullet and updated their house with a new roof, vinyl siding, and all wood covered to eliminate any painting. **Brian & Carole** also went the vinyl siding route plus a new chimney (the old one teetered as it was being razed). The company that did the siding let **Don & Brian** keep the old aluminum siding for recycling by the Boy Scouts – **Don's** netted them \$436 and **Brian's** a little bit more than that.

CHURCH

Ken is still teaching Bible study on Wednesday night and wants to encourage everyone to "keep on the firing line." because as much as we enjoy the Hayman reunion it doesn't compare to the one we are promised.

Linda went with several ladies in their church van to the Civic Center in Charleston, WV to see a Bill Gaither Concert on May 30th.

Ashley and **Gloria** attended **Kenny** and **Becky's** church picnic. The live entertainment included **Kenny** singing and dedicating "Call Out my Name" by Squire Parsons to **Phyllis**.

Barb visited her **Mom** and went to the Mother and Family Banquet on Friday May 9th. **Curtis** had to work. **Bob, Annie, Kyle** and **Allison** attended also. The catering was provided by The Eastern Star from Mason. Family portraits were done. **Linda** followed **Barb** back to Columbus on Saturday to attend her Mothers Banquet that evening. **Curtis** and other mother's sons also attended. They went to **Barb's** church the next morning and out to dinner. **Linda** traveled home that afternoon to spend time at **Bob** and **Annie's** also.

Gloria has been volunteering for a few of the projects that her church holds for the community and youth; Community Dinners, Fifth Quarter for the Athens High School football team after the home games, and Upward Basketball. These are for boys and girls 5 years of age to sixth grade -- they had over 250 kids this year.

Linda, Bob and **Kyle** played an instrumental called "The Old Rugged Cross" at **Linda's** church for the "Good Friday" Service; **Linda** on piano, **Bob** on bass guitar and **Kyle** playing lead on the electric guitar. They plan to practice another song to play for the church's dedication this Fall for the new Sanctuary.

Sarah, Timothy and **Brian** went to "Rock" in Ocean City, MD with their church youth group.

Linda is still attending New Beginnings Baptist. They completed the new Sanctuary in January. Her church hosted an Old Fashioned Tent Revival with several other denominations participating. Each of their Pastors preached each of the six nights. She was in charge of getting special singing groups. There was a wide variety with old and new country and southern gospel, bluegrass, contemporary and folk. This all started immediately after three nights of "Singing In The Pines". WOW!! Nine nights in a row!!

SCHOOL

Zac graduated from Ohio University in March with a master's degree in U.S. history.

Congratulations to this year's High School Graduates; **Michael Hart, Kyle Hart, Keri Wilson,** and **Mallory Wise**.

Kyle graduated from South Carroll High in June with many honors and awards: Graduate of Distinction, Presidential Award for Academic Excellence, Governor of Maryland's Merit Scholastic Award, National Merit Scholarship Program (Commended), Maryland Distinguished Scholar Program (Honorable Mention), National Honor Society, Maryland Scholars Program, and Project Lead the Way Award of Excellence.

Kyle will be attending Lehigh University in Bethlehem, PA in the fall. He will be majoring in engineering. Bethlehem is about 3 hours from home; far enough to be on his own and close enough to come home when necessary.

Sophia completed 3rd grade this year on the honor roll. **Ken** and **Becky** are very proud of her.

Nate showed his Freshman year at Long Reach who was boss by finishing the school year with a 4.0 GPA.

Timothy played clarinet in his school's honor band and attended the Mid-Atlantic M.S.F. competition near Hershey, PA. After performing for the judges, they enjoyed a day at Hershey Park. In the evening they attended the awards ceremony and were awarded the 1st place trophy.

David ended his first year of middle school with a 4.0 point average and is eager to begin 7th grade. He continues to be a sports fanatic, playing baseball, soccer, basketball, and tennis. He also lived through being in the band this year playing the trumpet, in spite of his mother forcing him to try it. He even got an A in that!

Keri graduated her senior year at Long Reach with a 3.67 cumulative GPA, in the National Honor Society, National Spanish Honor Society, and with merit. She won most spirited in the yearbook because of her passion for purple (especially when it came to hair). She will be attending UMBC this fall and will be majoring in Pre-Medicine.

Sarah Beth is going to be a senior this year. She finished her junior year on the honor roll and is hoping to go on to be a dental hygienist.

Jesse finished his senior year at OVU on the Dean's list. He has to do his Student Teaching this fall to finish up.

Amber's 8th grade class went to Washington D.C. for their annual trip. Even though it was cold and rainy the first day, the second day was perfect. Again this year she made the honor roll with two nine-week periods of straight As, which led her to the academic banquet. Now she is

looking forward to playing volleyball as a freshman at Southern High School.

Sarah finished 10th grade this year at Western School of Technology & Environmental Science. Her magnet is Information Technology and she loves it. She now has her Microsoft Office Specialist Certification at the master level. She has learned web design and created websites for her church youth group and SADD at her school. She took html:javascript this year and although she has enjoyed all of her IT classes so far, programming is her favorite.

Even though **Kelsey** will be a senior in High School this fall, she will be taking a college Health class at Carroll Community College. This is possible via the school system's concurrent enrollment program. She will attend high school for ½ the day, leave at noon, and then drive to the community college for her Health class. **Kelsey** sees this as an opportunity to "test the waters" of college-level courses and to see what the community college is like (plus she has already taken all the good classes at high school).

Timothy finished 8th grade at Arbutus Middle School and is ready for high school. At an end-of-the-year awards ceremony, he received an award for Mathematics. He also received a very special monetary donation that is given each year by one of the music teachers in memory of his mother. **Tim** played clarinet in the 8th grade band, the Arbutus Wind Ensemble, the Jazz Band, and he played guitar in the Rock Band at school this year. Tim has been accepted to the same magnet high school as **Sarah** where he will

study Environmental Science. Sarah is thrilled that her younger brother will be a freshman at her school this year!

Allison made the honor roll all year and will be in the 2nd grade this Fall. She was a cheerleader at school this last year and looks forward to cheerleading again this year. Her colors were red and white. She has also lost a few teeth and had visits from the tooth fairy. Her **Mom** found what she thought was sand between the bed sheets. It turned out to be "salt" because "**Maw Maw**" told her you had to throw salt on the fairies tail to catch it! Guess who was in trouble! Not **Allison**!!!!

Nicholas will enter 5th grade this fall and is officially a Webelo in Cub Scouts. He is keeping his acting skills honed having been in several plays this year including, Elves and the Shoemaker, Alice in Wonderland, Be Kind to Mother Nature, Blame it on the Wolf, Pinocchio, and the Snow Queen. He also did a great stand up comedy routine for the school talent show.

Matthew finished 5th grade at Arbutus Elementary School and will be taking over the middle school this year. He played the trumpet in the school band and was a school safety. He is excited to be going to the middle school.

Emily is heading to 3rd grade and is a little Jackie of all trades. She keeps up with both of her brothers playing sports and acting! She had the lead role in the school play, Be Kind to Mother Nature and also had parts in Blame it on the Wolf, Pinocchio, Alice in Wonderland, and Elves and the Shoemaker.

Kyle will be a Senior at Wahama High this Fall.

SPORTS

Timothy and **Matthew** love soccer and played outdoor soccer and two sessions of indoor soccer this past year. They can't seem to get enough. **Timothy**, who has always been a great defense player, got a chance to play offense and scored a good percentage of the goals for his team. **Matthew** usually plays defense, but had some opportunities to play offense this year and scored a few goals for his team also. **Timothy** plans to try out for the high school soccer team this fall.

Nate decided to join the cross country and track teams at Long Reach High this year. He did very well and ended up being the track team's best male 2 mile runner.

Emma played Lacrosse this past spring and her team had their best season ever. The team got to travel to Morgantown, WV to play in a tournament. The team won all 3 games.

Scott was on the golf team in the fall and ran track in the spring, and he looks forward to playing sports in high school.

Ken took a class to become a basketball official. He will be doing Middle School and Junior Varsity games for 2 years before he can do Varsity and College.

Jesse finished his college baseball career this year being named to the all conference team for the 3rd year in a row. He injured his elbow a couple games into the season and was unable to pitch after that. He played short stop and 2nd base the rest of the season and was awarded the "Shannon Stewart Heart and Hustle Award". It is voted on by the league coaches for kids that play through with an injury.

Keri left Long Reach as the 2008 Cross Country MVP, 2008 Track Co-MVP, and the class of 2008's Female Athlete of the Year. She was also 1 of 2 people who got a special award for receiving 6 varsity letters during her junior and senior year of highschool. She will be competing on UMBC's cross country and track teams.

Emily keeps up with both of her brothers playing sports and acting! She had a great season in softball and is hoping for a better season in soccer this fall. **Emily** is also a maniac on her bicycle and can go for miles and miles.

EVENTS

Kelsey passed her drivers license exam in May. Unlike most typical teenagers, it took her a month from the time she came home with her license to the very first time she drove alone. She only drives when absolutely necessary, or when Mom and Dad force her.

Beth was in a car accident this year. She was rear-ended, with \$7200 worth of damage. Her car is all fixed now, but for 4 weeks she was given a rental car, a PT Cruiser. Boy was she glad to get back her little sports car, which looks just like it did before the

accident. She says PT Cruisers just aren't her cup of tea. You know what she means, not her style!!!

Linda said she enjoyed helping **Bob** and **Annie** get ready for a **Jewell** Reunion the week end of July 4th. It had been eight to ten years since the last one. Everyone wanted **Linda** to attend. It was really nice. The farm home with all the flowers in bloom and **Annie's** decorative touch looked like a picture from Country Living magazine. It took team effort from everyone because they had such a short notice. There was family **Linda** had not seen in years. The nephews and nieces were now adults and had children of their own. The kids enjoyed the swimming pool, trampoline, swing set and slide, farm animals, including a new black baby bunny, and a gold fish pond. It started with a picnic Friday evening and homemade ice cream. Saturday began with another picnic in the afternoon, a hayride in the evening, and ended with a Hot Dog Roast around the fire ring. **Linda** prepared all her kids and grandchildren a full course breakfast Sunday morning. The **Jewell's** want to continue this Reunion tradition on the farm. **Annie** said she and **Bob** may brave another October bean dinner, hot dog roast and hayride for the **Hayman's** again this year.

The place that **Steve** and **Beth** moved into a couple of years ago sits next to a creek. **Beth** had asked **Steve** if the creek ever floods, and he said that the neighbors had told him that they hadn't seen it flood in 25 to 30 years. Well, in the first part of June, they had been getting hit with big rains several days in a row. Of course, there were a lot of

flash flood warnings for their area on TV and radio. **Beth** never paid much attention to the flash flood warnings because she had never lived anywhere where the floods took place, except the river of course. Well, she came home early from work one day and was working on her computer. The window in the computer room faces the creek beside the house. It had been raining all day, so she looked out the window at the creek and decided to take a video of it because it was flowing pretty fast. She still didn't think it would get very high based on what the neighbors said and the fact that she had lived there two years and had never seen it get very high with past rains. Much to her surprise, and very unexpectedly, the 5-foot creek turned into a 35-foot creek in a 6-minute time frame. This was the first time she had ever seen the creeks flash flood before -- pretty scary and exciting at the same time. She thought it would hit the trailer so she gathered up the animals in her car and continued videoing. Luckily, the creek shifted direction and headed toward their neighbor's house. Good for **Beth** and **Steve** but not for the neighbors. Of course, the dog wanted to go swimming. It was exciting to watch but very scary at the same time, and **Beth** felt bad for her neighbors. They had moved in 2 years ago around the same time and were told it would never flood -- they are ready to move. The closest the water got

to the house was about 5 feet away. Two good things did come out of their experience: the flood made the creek a lot bigger now so they have a pond for the dog to swim in and they also have a bull frog that the water must have washed in -- they get to listen to him every night.

Memories of Virginia Beach

By Linda Jewell

Last year my fiancée' Joe Kirby Sr. and I were to be married on the beach in Norfolk, Va. at Rudee Inlet on August 4th 2007. The motel we had chosen overlooked the ocean and rocky inlet. We had dated almost two years and visited his Aunt Pearlle there on several occasions. She went out to eat with us every evening at really nice seafood restaurants and would never let us pay a dime. She always had me bring my keyboard and play it for her. She was really looking forward to and was already helping plan the wedding reception to be at her house. The rest of Joe's vacation after our wedding and beach stay was to be at her home. We had planned many places to go and things to see. I still keep in contact with Aunt Pearlle. She lives with her son and his wife now because of a fall and broken hip. I came to love her very much and miss her.

Joe had been sick for a long time with Diabetes before I met him and had been hospitalized to keep it under control. He gradually lost a lot of weight and eventually became Insulin dependent. The last two weeks of his life were very difficult for him. I had spent Saturday with him and he seemed fine when I went home about 12:30 a.m. I received a call from him at 3:30 a.m. and he wanted me to take him to the Hospital ER. He asked me not to call an Emergency Squad and said he was vomiting and very ill and wanted me to take him.

I broke speed limits to his home in Racine. He walked out to his car and got in. I drove him thinking this was like the other times. It was still dark out and I didn't see a police car or anyone to help as things progressed worse. I started really praying because he was asking God to please help him because he was so sick. By the time I reached the four-lane I was doing 100 mph out it to the hospital and still saw no sign of possible help, and I didn't have a cell phone.

God decided to usher him out of this world with his angels while his head lay on my shoulder before I could get there. The Doctor and Nurses worked for an hour with no hope. I was told there was nothing I could have done any differently and that it was a massive heart attack due to his illness.

I immediately went into emotional shock with tremors, chills and vomiting. The Nurse wanted to give me a shot. I said no because I still had been trying to call his son and needed to contact my family and pastor. It was all very traumatic and I will never forget it. I miss Joe very much and wonder what our married life would have been together. I still love him and wear my engagement ring.

Since Joe had died two months before our wedding, I felt an inner need to travel to Virginia Beach and go down on Rudee Inlet at exactly the time in the evening of Aug. 4th where the wedding was to have taken place. I purchased two peach roses the color my dress was to be and placed rose petals upon the water and sand in memory of Joe and our love for each other. My friend and Sister-in-Christ, Carolyn, insisted I not travel alone and went along for support. I'm glad she did. A few travel problems slowed us down. A traffic tieup getting through the Hampton tunnel under the water was one of them. I kept praying that we could arrive on the beach at the exact planned wedding time. Praise The Lord!! It was almost to the minute!! It was a beautiful evening on the shore just as I had pictured except (no wedding). We stayed and watched the beautiful sunset. I have pictures of the event.

On the way back home we visited Aunt Pearlle. Was she surprised!! She insisted we go out to dinner and again refused to let us pay a dime. I held her and cried so hard when I saw her and again when we said good-bye. She wants Carolyn and me to come down and visit her. Lord willing, we plan to. I will always

have memories of Joe, Aunt Pearlle and Virginia Beach along the rocky Rudee Inlet. It is okay in life to dream and make plans, but the good Lord is always in control. Below are words that express how I felt. Carolyn put them in poem form for me. It was in our local newspaper with our picture last Aug. 4th, 2007.

IN LOVING MEMORY OF
JOSEPH KIRBY SR.

*Who went to be with the Lord
June 10th, 2007*

You were to be my husband
I was your wife to be
The time that God gave me in your life
is now an honored memory.
Our wedding plans were all complete
on the Atlantic Ocean shore
But now you walk with Angels
in God's presence evermore.
Although our life together wed
was never meant to be
I'll join you on that Heavenly Shore
through all eternity.

On this our Wedding Date
Saturday, August 4th, 2007

*Your fiancee'
Linda Jewell*

A Long Lost Friend

By Linda Jewell

I'm sure you have heard the lyrics to the song "Almost Heaven West Virginia". There is another song by John Denver that says "hey, it's good to be back home again" and "this old farm feels like a long lost friend".

After my first divorce, I moved away from the farm my kids grew up on. Years have passed since. Bob and Annie eventually purchased the 106 acres and house that Gene, Barb, Bob and I owned. It joins the 108 acres the kid's Dad owns and lives on that his parents originally owned. Bob works where his Dad used to work (Kaiser Aluminum, which is now called ALCAN). He also farms and maintains the total 214 acres from both farms.

When Bob's grandparents died, most everything in equipment and machinery was sold. He almost started from scratch, buying what was needed, when he decided to work the farm and live there. His heart's desire is to farm only, on a bigger scale selling more hay and raising beef cattle to sell. Bob is the only grandchild of the Jewell's that wanted to carry on the heritage of his grandparents to keep the farm going and keep it in the family and to have family reunions there.

Annie also stays very busy working full time at D&W Estates as Office Manager, Receptionist, etc. The rest of her time is spent maintaining the family home, caring for farm animals and family pets, and doing gardening, flower, craft, and landscaping projects.

After Linda's fiancée' Joe died, she asked Bob and Annie if she could move into their empty mobile home one-half mile back the road on their farm. Renters had abused it. One year has passed and with team effort we have turned it and the property into the beautiful place it once was. Annie said she has always wanted me to live there.

Not long after getting up one morning, I was walking through each room enjoying looking out the windows at the countryside. Every window captures a beautiful view. It was then that the lyrics to the two songs started running through my mind; "country roads take me home, to the place where I belong" and "this old farm feels like a long lost friend, Yes, 'n' hey, it's good to be back home again".

The back porch has an old swing and the tin roof over it sounds great when it's raining. The creek runs in the field below the woods. The whippoorwill's call at night, the lightning bugs are everywhere, and the coyote's howl. A mocking bird sings all night. The good Lord, a cup of coffee, and a cushion on the swing is all that's needed!!! My Australian Shepherd Scar, and my Bassett Hound Bradley play in the field out back. A storm just passed by and a deer is over in the field -- many come down to drink and eat.

Allison likes to stay all night on week-ends. Kyle and Bob swing up my driveway on their four-wheelers now and then on their way hunting, fishing or just joy riding heading for the trails in the woods. Kyle sometimes takes me on his four-wheeler to the top of the farm because he and I both love the sunsets. Annie and I sometimes work in flower gardens, share decorating ideas, and shop at the mall.

I wrote a story in the Hayman Holler one year about being glad I was a country girl and that I missed the country while living in town. You never know where life will lead you. This old farm does feel like a long lost friend that has been found!!! Thank God I am a country girl.

My Family

By Beth Hart

My name is Beth Hart and I have a story to tell you. I belong to a family that is a lot of fun and I am going to tell you about them one by one.

1. Daddy, he was the most important one in the family. He was kind of in his own little world amongst himself, but never far from help. He would be there whenever you needed him. For his family, it took nothing to go out on a limb.

Quiet, but sheik, dazzling, but neat
Interesting, but confusing
Lovable and very amusing
He's the tops because he was our pops

2. Mom, she is the loving one. When you feel bad she will sit with you all night. It seems like wherever Mom is, following her is a bright shiny light -- the kind of light that lights up a room and shines as bright as the full moon. The one thing I love about Mom so much is that no matter what, she is there for me, helping me be all that I can be. I just thank God she cares, I am a lucky girl. There is no other mother like her in the world.

Loving mother, there is no other
Worries a lot, but with a good heart
Helpful hand, loves her Jesus
She's my mother and I love her to pieces

3. Oldest brother (Bruce). Now he is a good hearted man. He takes care of his family every way he can. He is very impressive in every way. There are so many good words I could say. I was too young so I did not know what he was like in school, but by the way his life turned out, he is no fool.

Intellectual, but laid back
Admirable, but integrity he does not lack
Enjoyable, but hard to get to know
I will always love him, he is my biggest bro

4. Older sister (Bev). Now she is one great woman. Cannot get any better than her. She is the best sister around, one who would never let you down. To me, she is perfect. I cannot find

anything wrong. In this family is where she belongs:

Petite, but strong, reminds me of a happy song
Tiny body, big heart, sweet as a sweet tart
Spirited and bliss, I love her she is my sis

5. Older brother, (Brice). He is the funny one of them all. Helps everyone to have a ball. I always used to think he was so different in school, but now I think he has turned out quite cool. I'm sure if his family needed him he would be there and really show them that he cares. I hope he never changes, he is a wonderful man. I will tell him that every chance I can.

Comforting, but a riot
Kind of shy, but not quiet
Silly, but smart
Very economically settled, lives like a pro
I will always love him, he is my other bro.

6. The youngest, me (Beth). I am the crazy one. The unpredictable youngest. Living life to the fullest. The one who made the mistakes, who sees a dare and has to take. The crazy one who is still a little unsure and working on the problems in life and plans to invent the cure.

Sensitive, but strong and bold
Hard to break, but easy to unfold
Crazy, but calm, nervous, but strong
Buzzes around free as a bee
I like it that way because that's me.

Well, this is the end of my poem, I hope you liked it. And as far as my family goes, I love them all.

One more important thing to mention:

Thank you Grandma and Grandpa Hart and Grandma and Grandpa Hayman, because if it were not for you, none of us would be here. I want you to know that I love all of you and hold you very dear.

Steve and Beth do a lot of 4-wheelin. They like to ride out to the strip mines which are about a mile from the house; there is a lot of beautiful scenery to enjoy and lots of mud!! Steve enjoys climbing the hills and Beth just likes playing in the mud. Here are some pictures of where they go riding!! Hope you enjoy them!!
